August 10, 1965
Sravana 19, 1887.

I send my best wishes on the inauguration of the new Agricultural College at Othakadai. Agriculture is, and must remain, our primary industry. All our hopes of raising the standard of living of our people are founded on the country's ability to eventually become self-sufficient in food. On the young men and women who will train in this College and others like it will depend the future happiness and well-being of the nation. May success attend their efforts.

(S. Radhakrishnan)
